

## Barrington Hall The Steel Coffee

Is just pure Mocha and Java prepared in a new way. The coffee berry is cut up (not ground) by knives of almost razor sharpness into small uniform particles. Thus it is not crushed, as by the old method of grinding, and the little oil cells remain unbroken. The essential oil (food product) cannot evaporate and is preserved indefinitely. This is one reason why a pound of Barrington Hall will make 15 to 20 cups more of full strength coffee than will any coffee ground the old way; why it excels all other coffee in flavor and why it will keep perfectly until used.

But the main thing about Barrington Hall Coffee is that it can be used without ill effect by those who find ordinary coffee injures them, because the yellow tannin-bearing skin and dust (the only injurious properties of coffee) are removed by the "steel-cut" process. A delicious coffee not a tasteless substitute.

## CLIMAX OF THE CENTENNIAL

The Archbishop Had as a Guest of

Who Witnessed the Parade Which  
Was Three Hours in Passing.

NEW YORK, May 2.—New York witnessed an extraordinary religious demonstration today on Fifth avenue, when 40,000 laymen ranging from 20 to 60 years of age, passed in review before the Archbishop of New York and his guest of honor, the Irish prelate, Cardinal Logue, of Armagh. It was the climax to a series of rejoicings for the century of organized Catholicism in this city. The parade started to pass the grand stand at 2 o'clock and last company passed at 5 o'clock. Among those in the parade were Thomas F. Ryan, Judge Morgan, J. O'Brien and other well known men.

## SECRET RECEPTACLE.

Holds the Fortune of Mrs. Jessie F. Dietsch.

SAN FRANCISCO, May 2.—Cunningly hidden in a secret receptacle deftly carved in the leg of an antique table, the fortune of the late Mrs. Jessie Fremont Dietsch, relative of the noted pathfinder, General John C. Fremont, was found yesterday by the deputy public administrator, W. J. Hines. The neatly fastened little bundle gave up a bank book showing deposits of \$4200, a costly collection of time-honored jewelry, shares in wildcat concerns worth their waste paper value. The latter articles are considered worthless, though they represented thousands of dollars at one time. Their presence in the treasure box tells a silent story of where the dead woman sank the large sums which she was supposed to have in her possession at the time of her death. The sole heir to the valuables is Mrs. Mary Anne Jemmm Sizemore of Georgetown, Idaho.

## EXPRESSES OPINION

On Recent Shooting at Fort de France

WAS NO SURPRISE TO HIM

Prominent New York Man Gives Ideas on the Race Question in Martinique—Whites and Black Are Still up in Arms.

NEW YORK, May 2.—The shooting with fatal results at Fort de France, Martinique, was no surprise to one man at least, in that city, who, occupying a prominent position with a well known exporting firm, could not allow his name to be made public, in view of the fact that he was connected politically with one party on the island, the anti-negro element. This man received a cable message immediately after the shooting of M. Siger.

"For years there has been a race war between the negroes and the whites and the mayor has been the foremost in spreading among the negroes the doctrine of 'Down with the Whites,' telling them that if the white race dominated, they (the negroes), would be sold into slavery and such nonsense," said the man, at his office yesterday.

"No one knows better than I," he continued, "how outside of the main centers the agitation against a white man's regime has been conducted for years. The feeling is intensely bitter. Recently M. Vardon, a young man, cried out in the street 'Long Live the Whites.' He was arrested and thrown into jail by the mayor for les majeste, or something to that effect.

"The bitter feeling will continue, for the white race in the French possessions has determined that it will not be dominated by the blacks. I expect that more lives will be sacrificed."

One of the officers of the American Trading Company which has important connections in Martinique said that the company paid no attention to the political disturbances, but he did not think it was a conflict between the white and black inhabitants.

"While it was more fatal, due largely to the temperament of the people," this man said, "the political disturbance was probably no more than the one at the democratic convention in Carnegie Hall."

## PUBLIC DEBT.

WASHINGTON, May 2.—The monthly statement of the public debt shows that at the close of business April 30, 1908, the debt, less cash in the treasury amounted to \$925,167,236 which is an increase as compared with March 30, 1908, of \$15,445,899. The debt is recapitulated as follows:

Interest bearing debt, \$897,503,990.  
Debt on which interest has ceased, since maturity \$4,500,395.

Debt bearing no interest, \$424,757,937; total, \$1,326,764,223.

This amount, however, does not include \$1,315,840,869 in certificates and treasury notes outstanding which are offset by an equal amount of cash held in the treasury for their redemption.

The cash in the treasury is classified as follows:

Gold reserve, \$150,000,000.  
Trust funds, \$1,315,840,869.  
General fund, \$169,129,853.

In national bank depositories, \$200,713,219.

In treasury of Philippines, \$3,366,420.

Total \$1,839,050,362, against which there are demand liabilities outstanding amounting to \$1,437,454,375, which leaves a cash balance of \$401,596,987.

## ROBERT WATCHORN.

NEW YORK, May 2.—Robert Watchorn, commissioner of immigration, was asked what he thought of the report that he was to be placed at the head of a potential new bureau of the Department of Commerce and Labor, to be known as the "Anarchist Exclusion Branch."

Mr. Watchorn declined to discuss the matter in any way until he had official information regarding it. He did not appear to be well pleased with the idea. "It is not generally known," he said, "that the United States gets one-third of the Italian emigrants, the actual figures for the last year being 640, departures from Italy, of which number 273,000 came to the United States, the rest going principally to South America."
